

#00 — RYSURGE FC

vs. Rysurge United · Defensive Midfielder · Formation **4-3-3 Holding** · U14 Boys · 50’ played (70’ game)

MAIN TAKEAWAY

#00 showed strong control in midfield, confidence receiving under pressure, and the quality to create chances with forward passes. He also competed well defensively and produced an excellent assist. His main focus should be choosing the simpler option when the forward pass is not available and reacting more quickly after losing possession.

WHAT HE DOES WELL

- Controls the ball under pressure: He handled difficult passes well, turned away from opponents, and helped his team keep possession.
- Can unlock the defense: He showed the vision and technique to play an accurate through ball that directly created a goal.

DEVELOPMENT AREAS

- Choose the best passing option: Look across the field before forcing a forward pass, especially when a nearby teammate is open.
- Respond positively to mistakes: React with effort and composure after a misplaced pass rather than showing frustration or slowing down.

KEY MOMENTS FROM FILM

0:00-0:16

● KEEPS POSSESSION BUT MISPLACES THE WIDE PASS

He controlled a difficult pass from the center back, played wide to the fullback, received it back, and won a free kick near halfway.

→ Excellent control, but play the pass ahead of the fullback and respond calmly rather than showing frustration when the move breaks down.

0:16-0:27

● TURNS AWAY FROM PRESSURE BUT FORCES THE PASS

He collected a loose ball, turned away from pressure, and attempted a left-footed forward pass that was intercepted before bouncing to the left back.

→ Good turn and willingness to use your left foot, but use the open left back when the forward pass is not clearly available.

0:27-0:45

● OVERHITS THE THROUGH BALL

He played a pass behind the right back, received the ball again, and then overhit a through ball beyond the defensive line.

→ Pass ahead of the fullback, avoid toe-poking the ball, and take advantage of the time you have to give the forward pass the correct weight.

0:45-0:59

● DELIVERS A PERFECT ASSIST

He received in midfield, carried the ball forward, and played an accurate through ball behind the defense for an assist.

→ Excellent control, vision, and execution—this showed the quality you have when you take your time and get the weight of pass right.

1:00-1:08

● FORCES THE PASS AND DOES NOT RECOVER

He collected a loose ball and attempted a through ball toward the right winger that was intercepted and led to an opposition chance.

→ Scan the central and left-sided options before committing to the pass, disguise your intention better, and work harder to recover after losing the ball.

1:08-1:17

● WINS THE BALL WITH A STRONG TACKLE

He read the opponent’s movement and made a successful tackle in midfield that regained possession high up the pitch.

→ Excellent focus, timing, and bravery—you watched the ball and competed strongly against a larger opponent.

COACHING FOCUS THIS WEEK

Scan all available options before passing, and react immediately if possession is lost.
